INTRODUCTION

"We Redefine Beauty - Redefine You"

Our story began in 2015 with a humble beginning but with a strong desire to enrich the beauty of people Naturally and as God has created.

Our Mission: To build the confidence of each Persona by nurturing and enhancing their Individual Beauty.

VRH the brain child of Mr. Vishal Sehgal, who with his vision to create new entities for Skin and Hair care different from others, laid the foundation of VRH

VRH has grown leaps and bounds over the years as its innovative formulations have been endorsed and testified by not only the Dermatological Medical fraternity but also the end user

The ever increasing knowledge and awareness of the consumer encourages us to deliver latest cutting edge technology and formulations best suited to their needs

In a short span of eight years we have made our presence felt in the Cosmeceuticals arena not only in India but also abroad and have become envy of many strong players.

This has been possible because of our dedicated, innovative and strong Human resources who are ever enthusiastic to deliver excellence.

R & D and Manufacturing Capabilities

Reliable Manufacturing : We have successfully been accredited by the FDA and all our products are manufactured in accordance with the CGMP requirements

Experience & Expertise : We proudly guarantee the quality of our manufacturing based on the professional knowledge and know-how of our senior researchers with their experience.

Sophisticated Equipment : Leveraging on our high-end, sophisticated manufacturing facilities and equipment, we have the capacity to produce reliable quality products.

R&D represents the activities companies undertake to innovate and introduce new products and services or to improve their existing offerings.

R&D is often a broad approach to exploratory advancement, while applied research is more geared towards researching a more narrow scope.

An ongoing effort to develop or improve products and services, often undertaken by teams of highly skilled scientists.
